DETAILED ACTION

Response to Arguments

Applicant's arguments (see page 6, last paragraph and page 7, first paragraph) filed July 28, 2006, with respect to claim 24 have been fully considered and are persuasive. The rejection of claim 24 has been withdrawn.

Allowable Subject Matter

Claims 1-4, 6, 7, and 24-33 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the reasons for allowance were provided in the Office Action mailed on April 28, 2006.

Regarding claim 24, the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including adjacent ones of the primary grain boundaries are not parallel to each other, wherein an area surrounded by the primary grain boundaries is larger than $1 \mu\text{m}^2$, and wherein polycrystalline silicon grains extend to the primary grain boundaries from an amorphous silicon portion in the area. Note that applicant has specifically defined (in the amendment filed March 1, 2006) a primary grain boundary as "a boundary where polycrystalline grains grown in different directions meet".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
